

Dr. _____

Here is information for you to review on LifeVantage Protandim. My business partner, Marci Preble, in Orange County California has many doctors recommend Protandim to their patients once they reviewed the research.

I would be happy to have her place Dr. Scott Graham, Orthopedic Surgeon, at SCOS in Southern California on the line to answer any of the medical questions that arise from the review of the research. Please let me know how I can be of assistance.

I have attached Peer Review Research on heart disease for your review

Also, please take the time to watch Dr. Joe McCord discuss Protandim on an ABC Prime Time Special by clicking on the link below:

www.abcliveit.com

All research I have attached is on:

www.pubmed.gov (National Library of Medicine website)

search: Protandim

search: NRF2

Then go to: youtube.com

Search: Dr. McCord at SeaChange

1 hour Lecture on the Science of Protandim

The Heart Studies

2009 Pulmonary Hypertension (Published in Circulation: American Heart Association Journal) reduced scaring of the heart by 50%

*2010 Harvard Medical School Muscular Dystrophy
Oxidative stress is a pertinent factor in Muscular Dystrophy. Protandim®
lowered oxidative stress by 48% and showed 38% less MRI signal abnormality*

2011 Ohio State Study: Bi-Pass Surgery: The veins that replaced the arteries in Bi-Pass surgery treated with Protandim did not fail at the same high rate as the veins not treated with Protandim.

*2011 Nrf2 study (Nrf2 re-balance cell DNA): Colon Cancer: Heart Disease: Alzheimer's:
The therapeutic potential of Nrf2 activation Study: Protandim® modulates pathways involving not only antioxidant enzymes, but of those related to colon cancer, cardiovascular disease,
and Alzheimer disease.*

2015 Nrf2 Study: (Nrf2 a master regulator of detoxification and also antioxidant, anti inflammatory and other cytoprotective mechanisms, is raised by health promoting factors): (Raising Nrf2 has been found to prevent /and or treat a large number of chronic inflammatory diseases in animal model/and or humans.)

Protandim is a Nrf2 Activator

Protandim is also a clinically proven Nrf2 activator. It is believed that we will talk about Nrf2 in 10 years like we talk about Cholesterol today. The idea is that Nrf2 the category with re-balance your cell DNA. A Nrf2 turns back on your survival genes which tells your body to repair. These survival genes get turned off as we age which is why we start having diseases and get old.

Please call me if you any questions after reviewing.

Sincerely,
